

Official Pleasure Saddle Horse Registry Application - Markings, Details, & General Rules

All white markings must be indicated on the drawings. Please show markings accurately as this is essential as a means of identification. This application will become a permanent part of this horse's record. If horse has no markings, write none on the "Markings Details" line below.

Markings Details: _____

PSHR General Rules Regarding Registrations: (Responsibility for correctness of pedigree rests with the owner/applicant of horse)

- Application for registration must be typed or in ink and must be submitted on this official application for registry form. This application becomes an important part of the records of the Registry. Every care should be exercised in giving dates, pedigrees, markings and etc.
- Three name choices must be submitted with each choice having no more than 30 characters, including punctuation and spaces.
- In order to qualify for registry the horse's sire and dam must be registered with a recognized PSHR qualifying breed. The sire and dam can be from different breeds. Example: A registered Tennessee Walking Horse sire & a registered Paso Fino dam, or any other combination of the recognized breeds. Please see "Breed Code Key" for the qualifying breeds. The PSHR accepts all easy-riding soft gaited breeds in the registry, without discrimination. If you do not see your gaited breed in the Breed Code Key, please feel free to submit your application for registration along with a request to add the gaited breed to the Breed Code Key. Registration and addition of the breed to the Code Key is subject to approval.
- A copy of the sire's and dam's registration papers must accompany this registration application. They will be kept in the permanent file with the horse's registration application.
- Two photos of the horse** must be submitted with this application of registration form, one of the right side and one of the left side. Photos must show the entire horse, head, body, all four legs and hooves. The photo of the left side will be used on the registration papers, so quality photos are important. Photos may be sent as email attachments. Photos will not be returned.
- Registration of foals requires signatures of the sire/stallion owner and the dam/mare owner in the breeder's certificate box below.
- Application for registration of high quality, gaited horses of unknown or unregistered parents is possible under the hardship clause. Applications falling under the hardship clause must be submitted with a VHS video tape or DVD showing the horse performing an easy-riding soft gait, such as the running walk, flat walk, rack, pace, stepping pace, foxtrot, slow saddle gait or single-foot. A self addressed stamped envelope must be included if you want your video returned. The PSHR reserves the right to deny registration of any horse that does not pass the video inspection for gait. Additional registration fees apply.
- Double registering horses already registered with another gaited breed: PSHR welcomes horses registered in other gaited breed associations/registries and will issue PSHR registration papers to horses registered in other gaited breeds. Please submit PSHR registration application along with a copy of the horse's registration papers, photos and registration fee. **For complete rules and regulations - please visit our website: <http://www.pshr.com>**

Breeder's Certificate - Sire's and Dam's Owner Signatures:

Sire's Owner: _____
At time of service (signature required)
